HR

Software graduate trainee

Ontum Education Bangalore

Dear Sir/Ma'am,

I'm writing to you to express my interest in the "Software Graduate Trainee" position available in your company,I would be available for this internship for the entire period mentioned in JD.

In the year of 2019 I passed out from the SJ govt polytechnic in Bangalore with a diploma degree in computer science. Currently I am pursuing a BE degree in information science engineering at CMRIT Bangalore. I came across your company information that read, an opening for BE graduate via placement drive,I am happy to have got this opportunity to apply for a job in a company like yours that holds some great reputations.

I am currently doing a web development internship at spark foundation. This internship is helping me with exposure to the working patterns. I am familiar with technologies like C,Python,DBMS, OPPs concepts, SDLC,HTML, CSS. and enhancing my skills by learning Java Script, Machine Learning,and Big Data.

I am certain that my skill set would make me a great candidate for this position as well as a great asset to your company. I appreciate your consideration and look forward to hearing from you.

Sincerely,

Vinuta Vilas Joglekar
